#### IMPORTANT INSTRUCTIONS:

\*For the first time we recommend to use a double dose of spray preps (amount of 500 for 1 ha=400 gr and amount of 500 K for 1 ha=200 gr).

\*Each preparation is quality tested by sensitive crystallisation and by chromatograms exams

\*On our website you can find the technical sheets about the preps, and if required we can send them.

\***Shipping costs are excluded, they will be comunicated before the shipment, you can find them on the website [www.agribionotizie.it](http://www.agribionotizie.it) in the "Sementi --> Costi di Trasporto" sections.**

\*[Agri.Bio organizes free courses about the preparation and the use of BD preparations, in our head office, in Cissone \(CN\) and in the national territory. You can visit the website \[www.agribionotizie.it\]\(http://www.agribionotizie.it\) and you will find the whole programme of the "THE AGRICULTURE OF TOMORROW".](http://www.agribionotizie.it)

\* You will find the recipes for the H. Erbe's preparations in the book "Aiuto per gli esseri elementari"

\*You can contact us for every other question or information or product you may need.
